EDUCATION

Bocconi University

PhD in Management, focus on Decision-Making under Uncertainty

Sep. 2023 – Present

Milan, Italy

- **Advisors:** Alfonso Gambardella and Arnaldo Camuffo
- **Lab:** ION Management Science Lab

Université Catholique de Louvain

Master 120 in Economics (Sciences économiques), Research track

Sep. 2019 – 2021

Louvain, Belgium

- **Coursework:** Adv. Micro & Macro I & II; Game Theory; Adv. Econometrics I & II; Ethics and Social Choice.
- **Thesis:** Measuring equality of opportunity based on individual's responsibility: Comparison Belgium and Colombia. Advisor: François Maniquet, Ph.D.

EAFIT University

Economics Bachelor

Jan. 2014 – 2018

Medellín, Colombia

- **Coursework:** Micro & Macro I–III; Game Theory; Econometrics I & II; Time Series Analysis; Behavioral Economics.

WORKING PAPERS

Measuring Scientific Decision-Making in Organizations

with Arnaldo Camuffo, Alfonso Gambardella, and Thomaz Teodorovicz

- Introduces a 24-item survey instrument measuring scientific decision-making (SDM) practices. Applied to a field sample of 3,178 managers across 54 firms. Identifies three dimensions: Causal Reasoning, Evidence Evaluation, and Adaptive Learning.

Heterogeneous Effects of Theory-Based Entrepreneurship Training

with Arnaldo Camuffo and Alfonso Gambardella

- Examines heterogeneous treatment effects of theory-based training programs across five RCTs (Italy, Colombia, Netherlands, Spain, UK) using Random Forest and causal inference methods. Ongoing.

Extracting Interpretable Models from Large Language Models for Organizational Data

with Said Kazemi

- Compares classical econometric approaches (LASSO) with LLM-based methods for predicting ordinal organizational variables. Explores prior and posterior LLM techniques including linear probing, prompt-ensemble, and linear distillation. Ongoing.

EXPERIENCE

ION Management Science Lab, Bocconi University

Research Assistant

Jun. 2023 – Present

Milan, Italy

- **Principal Investigators:** Alfonso Gambardella and Arnaldo Camuffo
- **Focus:** Decision-Making under Uncertainty, Management Science, field experiments

Fundación Éxito

Research Associate

Sep. 2021 – May 2022

Medellín, Colombia

- Data management, quantitative analysis, data visualization, qualitative research, and pilot design.

Innovations for Poverty Action (IPA)

Research Associate

Apr. 2020 – Jun. 2021

Medellín, Colombia

- **PI:** Christopher Blattman (University of Chicago). **Projects:** Gang Rule — studying criminal governance and state intervention; Recruitment — decision-making processes among youth in contexts of crime and violence.

EAFIT University

Research Assistant

2016 – Apr. 2020

Medellín, Colombia

- Research on labor discrimination in migration, citizen security, and cooperative experiment design. Collaborated with PIs at EAFIT, Los Andes, and the World Bank.

CONFERENCES & PRESENTATIONS

Theory-Based View: A Scientific Approach to Value Creation <i>Utah Winter Strategy Seminar</i>	January 2025 Deer Valley, Utah
2nd Annual Bayesian Entrepreneurship Conference <i>Conference</i>	2025 Bocconi University, Milan, Italy

SKILLS

- **Software & Programming:** Python, R, STATA, L^AT_EX, GIS, Cursor, API integration
- **Methods:** Causal inference, field experiments, machine learning, NLP / LLMs
- **Languages:** Spanish (*native*), English (*TOEFL: 97*)
